

Chuong Toan My Nguyen

Remote Entry-Level Data Entry | Admin Support | IT Assistant

High Point, NC 27262 | [LinkedIn](#) | [Email](#)

Dear Hiring Manager,

I am writing to express my interest in an entry-level remote position in IT assistance, data entry, or administrative support. I recently earned an Associate of Science degree in Information Technology from Guilford Technical Community College and am currently pursuing a Bachelor's degree in Computer Science at Southern New Hampshire University.

Throughout my academic studies and prior administrative experience, I have developed strong organizational skills, attention to detail, and the ability to process and manage information efficiently. My previous roles in office and customer support have strengthened my patience, reliability, and responsibility—qualities that I believe will allow me to contribute positively in a remote work environment.

Although I am new to professional IT and data entry roles, I am proficient in Microsoft Office applications and am eager to quickly learn and adapt to new software and systems. I am confident in my ability to handle repetitive tasks accurately, meet deadlines, and work independently while maintaining effective communication.

Thank you for considering my application. I look forward to the opportunity to support your team and further develop my skills in this field. Please feel free to contact me if you need any additional information.

Sincerely,

Chuong Toan My Nguyen

Recent IT graduate with foundational knowledge in Information Technology, Web Development, and Social Marketing. A quick learner with good communication skills and a strong willingness to continuously improve in related fields. Motivated to contribute effectively and adapt to new roles while developing both technical and soft skills relevant to the job.

OBJECTIVE

To obtain an entry-level position where I can apply my skills, continue developing new abilities, and contribute to the team with responsibility and attention to detail. I am specifically seeking fully remote opportunities to maximize my productivity and flexibility.
